French Door Murals Installation Instructions

The mural material is a special durable fabric that is very forgiving and easy to install. Large sections can be removed and re-positioned. If the adhesive folds against itself it can be slowly pulled it apart without damage.

Don't panic if you make a mistake. You can carefully pull the panel off and try again.

Instructions:

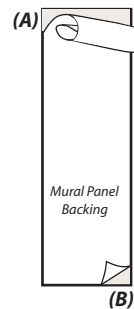

1. Mark with masking tape guidelines where you want top and side of the panel to be. Make sure that lines are level.
2. Remove all rings from hands to prevent scratches.
3. Remove 6" of the backing from the top of the mural panel and adhere it just below the top line.
4. Remove the backing from the lower left hand corner and tack it to the side line to insure the panel will be level.
5. Roll remaining backing off and smooth the mural carefully as the adhesive is exposed from top left to bottom right corner removing and resetting material as needed as creases or large bubbles occur until panel is fully adhered to surface.
6. Once adhered, cover the enclosed plastic tool edge with a paper towel and gently push any remaining bubbles out the sides
7. Remove tape guidelines.

1. Make guidelines

2. Partially remove backing

3. Adhere top (A)

4. Adhere Bottom corner (B)

5. Roll off backing and hand-smooth mural to surface.

6. Use scraper to remove remaining bubbles

7. Remove tape guidelines
